SKILLS

- Html 5 / CSS
- PHP
- Laravel
- ASP.Net
- MySQL
- SQL Server
- Flutter/Dart
- Firebase

LANGUAGES

- Urdu (Fluent)
- English (Fluent)

CERTIFICATES

- Entrepreneurship Course
IBA, 2023
- Developer Super League
Aptech, 2025

PROFILE

I am Schanze, currently pursuing my higher secondary education and completing a software engineering diploma. I have a strong passion for computer science, which has allowed me to create, learn and experiment with different languages. Ranging from websites to applications, I have gotten hands-on experience on building real-world projects.

WORK EXPERIENCE

Event Ease Mobile Application

Flutter | Dart | Firebase

Recently, I created a mobile application called *Event Ease*. It is a scalable Event Management App, which handles complex functionalities such as listing events, registering users for events, and a check-in system that functions in real time. I gained hands-on experience working with state management, handling validations, and authentication to assure a safe experience for the users.

BookStore E-Commerce App

Flutter | Dart | Firebase

I worked on an E-Commerce Bookstore app, using Flutter and Firebase as database. This is an optimized e-commerce app that allows users to have access to a large variety of books, place orders, track their orders and give out reviews. The backend is handled by the admin which ensures real-time changes and notifications being sent to users.

My Image Website

Asp.NET | SQL Server

I worked on a website called *My Image* using ASP.Net as the backend language, and SQL Server as the database. This website is mainly created for users to be able to print their images with full control. Having given an option of library, each user has their own personal library where they could upload their contents and later place orders.

MyLawyers Website

PHP/MySQL

I created a website called *MyLawyers* using PHP and MYSQL as database. The main purpose of this website is to create a space where lawyers can create authenticated accounts and users could set appointments.

EDUCATION

Olevels	2022-2024
DHACSS, Karachi	
HDSE Diploma	2024-2027
Aptech, Pakistan	(ongoing)
